MANAGEMENT DISCUSSION AND ANALYSIS

OVERVIEW OF THE ECONOMY

The International Monetary Fund (IMF) expects the global economy to grow 6% in 2021. The second wave of COVID-19's impact on lives and livelihoods has been devastating. Unlike last year, when the government had imposed a nationwide lockdown to curb the spread of Covid infection, this year States imposed lockdowns intermittently to deal with the second wave. Now there is also the threat of a third wave looming.

Strong multilateral cooperation is required to bring the pandemic under control everywhere. Such efforts include bolstering funding for the vaccine facilities to accelerate access to vaccines for all countries, ensuring universal distribution of vaccines and facilitating access to therapeutics at affordable prices for all. Many countries, particularly low-income developing economies, entered the crisis with high debt that is set to rise further during the pandemic. The global community will need to continue working closely to ensure adequate access to international liquidity for these countries. Where sovereign debt is unsustainable, eligible countries should work with creditors to restructure their debt under the Common Framework agreed by the G20.

INDIAN ECONOMY

The International Monetary Fund (IMF) moderated India's growth projection from 12.5 per cent to 9.5 per cent for fiscal 2021-22 down by three percentage points, following the severe second wave of COVID-19 pandemic in the country. For the current fiscal year, India witnessed the largest drop in growth projections made by IMF, even as the global economic growth rate remains the same at six per cent, according to IMF's latest World Economic Outlook.

OUTLOOK

The accelerating rollout of COVID-19 vaccines in many advanced economies has set the stage for rapid recovery in the second half of this year and into 2022. Advanced economies will remain less affected by the virus this year and beyond, with low-income countries and emerging markets suffering more. While, the global economy is expected to recover to its pre-pandemic level of output in 2022, the emerging-market and developing economies are expected to take until 2023 to recover to the pre-pandemic level.

COMPANY BUSINESS

The Company is a RBI registered Authorized Dealer Category-II for money changing and one of the Agents of overseas money transfer entities for international inbound money transfer business.

In money changing, the Company provides an array of products and services including buying and selling of foreign currency notes, issuance of travellers' cheques and outward telegraphic remittances, including outbound remittances towards student fees, tour remittances etc. and also extends to forex prepaid cards.

The Company's strength is its service, its brand image and number of allied products being made available to its valuable customers.

OPPORTUNITIES AND THREATS

The ongoing pandemic, travel restrictions, and the states imposed intermittent lockdown have brought the entire tourism industry to a standstill and unlike other sectors, tourism will take longer to recover, especially leisure tourism. This will have a impact on the Company's main business namely forex operations which depends upon international air traffic which is yet to be opened by the Government.

The company has taken all necessary steps to reduce the cost of operations and also is taking steps to generate / improve income from other lines. The Company is hopeful of improving its forex business to a reasonable level as and when international tour operations resume. The company continues to monitor the future economic conditions. Moreover considering the liquidity position of the company and steps taken to reduce the cost of operations and the other efforts taken, the company expects to manage this difficult phase of business.

**OPERATING AND FINANCIAL PERFORMANCE**

This has been covered in detail in the Directors' Report.

RISKS AND CONCERNS

Company has laid down a detailed risk management policy, customer identification and acceptance procedure. Credit procedure envisaged by the Company's credit policy ensures identification of the operational and business risk while entering into any transactions with the prospective customers. The financial risks involved are evaluated through a well laid down procedure. However, all the inherent business risks are adequately insured by the Company.

Exchange rate volatility faced is not only faced by the Company but is attuned to the forex industry globally. To mitigate the said risks Company closely monitors the exchange rate movement and hedges its liability on this account in the Forwards Forex market.

The company's business is also subjected to a regulatory framework established by RBI & FIU, calls for periodical reporting to guard the inherent risks associated with the Money Exchange & Money Transfer business activities. Hence, there is a regulatory control also in addition to the self control on the operations of the Company warrants continuous upgrading of its controls systems to mitigate different forms of risks.

INTERNAL CONTROL SYSTEM

The Company has already put in place an elaborate Internal Control and Internal Audit systems. The system ensures adequate periodical checks and balances are exercised. Continuous monitoring by the Internal Audit team of these checks and balances due to the inherent risks associated with the nature of Company's activities, ensures compliance of the regulatory framework of RBI & FIU. The Audit team is suitably guided and updated by the Audit Committee of the various regulatory requirements from time to time.

The Company has put in place a strict credit policy for extending credit to its corporate customers. The same is continuously monitored and reviewed periodically for any updations to ensure funds at Company's disposal are being judiciously utilised and efficiently managed vis-à-vis the business requirements.

MATERIAL DEVELOPMENTS IN HUMAN RESOURCES

The Company being part of the Banking and Financial Services sector, human resources has always been the main pillar for all the activities of the Company. Customer Satisfaction being the ultimate objective of the Company, to ensure sustained business growth. Company's focus have been to improve the staff's contribution towards the various services offered. To achieve this objective Company has ensured that all its employees receive continuous update on the Company's policies as well as the regulatory framework. On account of Covid, operations of various branches are suspended and further employees emoluments have been bifurcated into fixed and variable inline with business prospects.

CHANGES IN KEY FINANCIAL RATIOS

RATIOS	FINANCIAL YEAR 2020-21	FINANCIAL YEAR 2019-20	VARIANCE (%)
Debtors Turnover Ratio (Days)	14.09	4.62	204
Current Ratio (Times)	6.19	4.02	54
Debt Equity Ratio (Times)	2.13	2.18	(2.29)
Operating Profit Margin (%)	(27.14)	6.75	(502)
Net Profit Margin (%)	(28.69)	2.98	(1063)

Reasons for variations of 25% or more in above ratios:

Debtors Turnover Ratio: Increase in number of days for Financial Year 2020-21 is due to significant reduction in Average monthly business on account of Covid.

Current Ratio: The main reason for improvement in current ratio is on account of keeping the working capital funds in the form of Fixed Deposits in the absence of regular business.

Operating Profit Margin & Net Profit Margin: The business has been impacted because of non operations of International flights on account of Covid.

CAUTIONARY STATEMENT

Statements in the Management Discussion and Analysis Report describing the Company's objectives, expectations or predictions may be forward looking within the meaning of applicable securities Laws and Regulations. Actual results may differ materially from those expressed in the statement. As in any other business the performance of the Company is totally dependent on the market conditions of demand and supply, the volatility in exchange rate, the Government policy & regulations, the economy of the country and other factors.

INDEPENDENT AUDITOR'S REPORT

To
The Members
India Cements Capital Limited

Report on the Audit of the Standalone Ind AS Financial Statements

Opinion

We have audited the standalone Ind AS financial statements of India Cements Capital Ltd. ("the Company"), which comprise the balance sheet as at 31st March 2021, and the statement of profit and loss, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Companies Act, 2013 as amended (the Act) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, its loss, statement of changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the standalone Ind AS Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We draw attention to Note No. 10 of the Notes to Accounts of the Standalone Ind AS Financial Statements indicating that the Company's main business, viz. Forex Operation, has been affected during the Financial Year on account of restrictions on foreign travel imposed due to pandemic caused by COVID 19. The Company is hopeful that the Business will improve as and when the international tour operations resume. The company is reported to have explored other lines of business and taken steps to generate income and to reduce the overall cost of its operations. With signs of improvement in the overall situation of the economy the Company expects to improve its business in the coming years.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. We have determined that there are no key audit matters to communicate in our report.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board Report but does not include the standalone Ind AS financial statements and our auditors' report thereon.

Our opinion on the standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including Other Comprehensive Income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

In this connection we refer to Note No. 10 in the Notes to Accounts of Financial Statements, which has also been mentioned earlier under **Basis for Opinion**.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ▶ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure A statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss including other comprehensive Income, the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

- (e) On the basis of the written representations received from the directors as on 31st March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164(2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure B”.
- (g) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements – Refer Note on Contingent Liabilities Note No.3.1 to the standalone Ind AS financial statements;
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Report on Internal Financial Controls Over Financial Reporting

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of India Cements Capital Limited ("the Company") as of March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

INDIA CEMENTS CAPITAL LIMITED

Notes forming part of Financial Statements as at and for the year ended 31ST March, 2021

1. Corporate Information:

India Cements Capital Ltd (ICCL) is one of the associate companies of The India Cements Ltd. The Company is into money changing services, also extends advisory services on the forex market to exporters and importers, under the brand name of Midas Advisory and extending comprehensive travel related services like ticketing, hotel bookings, visa processing, etc.

2. Significant Accounting Policies

2.1 Basis of Preparation of financial statements

2.1.1 Preparation and compliance with Indian Accounting Standards (IND AS)

The Ministry of Corporate Affairs ('the MCA'), Government of India in exercise of the powers conferred by Section 133 read with Section 469 of the Companies Act, 2013 (The 'Act') and subsection 1 of section 210A of the Companies Act 1956 (The Erstwhile Act) in consultation with National Advisory Committee on Accounting Standards vide G.S.R. 111(E) dated February 11,2015 notified Rules called Companies (Indian Accounting Standard) Rules 2015 effective April 1,2015 which was further amended by MCA vide its notification dated March 30, 2016 and in line with the road map framed by the MCA, regarding the applicability of Ind AS, the company has prepared Ind AS Financials for two accounting period March 31, 2019 with comparatives for the year ended on March 31, 2018 with transition Balance Sheet as at April 1, 2017

2.1.2 Statement of Compliance

The financial statements comprising Balance sheet, Statement of Profit and Loss, Statement of changes in equity, cash flow statement , together with notes as at and for the year ended March 31, 2021 have been prepared in accordance with Ind AS duly approved by the Board of Directors.

2.1.3 Historical Cost convention

Preparation and compliance with Indian Accounting Standards (IND AS)

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company considers the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability. at the measurement date. Fair value for measurement and/or disclosure purposes in these Standalone financial statements is determined on such a basis, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

2.1.4 Current / Non Current classification

The assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Act. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities. Cash or cash equivalent is treated as current, unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

2.1.5 Functional and Presentation currency Items included in the Financial Statements of the Company are measured and presented using the currency of the primary economic environment in which the Company operates ("Functional Currency") . Indian Rupee is the functional Currency of the Company.

2.1.6 Recent accounting pronouncement

The Company has applied the following standards and amendments for the first time for their annual reporting period commencing 1 April 2018:

- ♦ Ind AS 115, Revenue from Contracts with Customers
- ♦ Amendment to Ind AS 20, Accounting for Government Grants and Disclosure of Government Assistance
- ♦ Appendix B, Foreign Currency Transactions and Advance Consideration to Ind AS 21, The Effects of Changes in Foreign Exchange Rates
- ♦ Amendment to Ind AS 12, Income Taxes
- ♦ Amendment to Ind AS 40, Investment Property
- ♦ Amendment to Ind AS 28, Investments in Associates and Joint Ventures and Ind AS 112, Disclosure of Interests in Other Entities

The Company had no requirement to change its accounting policy and adjustments following the adoption of Ind AS 115 has been prospective.

Most of the other amendments listed above did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

Ind AS116 Lease

Company proposes to use the "Modified Retrospective Approach" for transitioning to IndAS 116, and take the cumulative adjustment to retained earnings, on the date of initial application (April 1, 2019). Accordingly, comparatives for the year ended March 31, 2019 will not be retrospectively adjusted. The Company has elected certain available practical expedients on transition.

The effect of adoption as on transition date would be insignificant on the financial statements.

- ♦ Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments

- ♦ Amendment to Ind AS 12 – Income taxes
- ♦ Amendment to Ind AS 19 – plan amendment, curtailment or settlement

2.2 Revenue recognition

The MCA has issued a new standard for the recognition of revenue. This will replace Ind AS 18, Revenue which covers contracts for goods and services and Ind AS 11, Contracts which covers construction contracts. The new standard is based on the principle revenue recognised when control of a good or service transfers to a customer, so the notion of control replaces the risks and rewards.

A new five step process must be applied before revenue can be recognised

- ♦ Identify the contract with customer
- ♦ Identify the separate performance obligation
- ♦ Determine the transaction price
- ♦ Allocate the transaction price to each of the separate performance obligation
- ♦ Recognize the revenue as each performance obligation is satisfied

2.2.1 Revenue from Sale of currencies

Sales Revenue is recognized when control of currencies had passed on to the buyer. Revenue from these sale transactions are recognised based on price specified in the contract. Control is passed on to the buyer at a point in time of delivery of currencies.

Brokerage income

Income from brokerage being the commission on money changing is recognized on net basis. (Performance obligation is complete upon completion of sale and / or purchase of currencies from vendors / customer.)

2.2.2 Interest Income

Interest income if any from financial assets are recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset.

Interest income from fixed deposits in banks is recognised on time proportion basis, determined by the amount outstanding and the rate applicable.

2.3 Property, Plant and Equipment

2.3.1 Tangible Assets

All property plant and equipment are stated at historical cost of acquisition less accumulated depreciation and amortization and impairment. Historical cost includes purchase price, taxes and duties (Net of tax credits), labour cost and directly attributable overhead expenditure incurred upto the date the asset is ready for its intended use.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as separate asset is derecognized when replaced. All other repairs and maintenance are charged to Profit or Loss during the reporting period in which they are incurred.

Transition to Ind AS

On transition to Ind AS, Company has elected to continue carrying value of all its property, plant and equipment recognized as at 1 April 2017 measured as per the previous GAAP and use that carrying value as deemed cost of the property, plant and Equipment.

Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straightline method to allocate their cost, net of their residual values, over their estimated useful lives. The useful lives of assets are adopted to as specified by Schedule II to the Companies Act 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/ (losses).

2.3.2 Intangible assets

Intangible assets acquired are measured at cost less accumulated amortisation and impairment losses.

Identifiable intangible assets are recognized when the company controls the asset; it is probable that future economic benefits expected with the respective assets will flow to the Company for more than one economic period; and the cost of the asset can be measured reliably. Amortisation is provided on Straight Line Method (SLM), which reflect the management's estimate of the useful life of the intangible assets.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset

2.3.3 Impairment of assets

Assessment is done at each Balance Sheet date as to whether there is any indication that an asset (tangible and intangible) may be impaired. If any such indication exists, an estimate of the recoverable amount of the asset/ cash generating unit is made. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.

2.4 Borrowing costs

The Company capitalises borrowing costs that are directly attributable to the acquisition, construction or production of qualifying asset as a part of the cost of the asset. The Company recognises other borrowing costs as an expense in the period in which it incurs them. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale.

To the extent the Company borrows generally and uses them for the purpose of obtaining a qualifying asset, amount of borrowing cost eligible for capitalization is computed by applying a capitalization rate to the expenditure incurred. The capitalization rate is determined based on the weighted average of borrowing costs, other than borrowings made specifically towards purchase of a qualifying asset.

2.5 Foreign currency translation

2.5.1 Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). i.e in Indian rupee (INR.)

2.5.2 Transaction and Balances

Initial recognition

Foreign currency transactions are recorded in functional currency using the exchange rates prevailing on the date of transaction

Subsequent recognition

As at the reporting date, non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate prevailing at the date of the transaction.

All monetary assets and liabilities denominated in foreign currency are restated at the closing exchange rates. Exchange differences arising out of actual payment/ realization and from the year end restatement are recognised in the Statement of Profit and Loss.

2.6 Employee benefits

2.6.1 Short Term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services upto the end of the report period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

The Company recognises a liability and an expense for bonuses. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

2.6.2 Post employment obligation

The company operates the following post employment benefit schemes.

Defined benefit plans such as gratuity for its eligible employees and defined contribution plans such as provident fund

Defined Benefit Plan (Gratuity)

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on the government bonds that have terms approximating to the terms of the related obligation .

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of assets. This cost is included in employee benefit expense in the statement of profit and loss,

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the year in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined Contribution Plan (Provident Fund)

The Company pays provident fund contributions to publicly administered provident funds as per relevant regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to extent that a cash refund or a reduction in the future payments is available.

2.7 Taxes on Income

Income tax expense represents the sum of the current tax and deferred tax .

Current tax

The current tax is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit or loss and other comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts and it is intended to settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Deferred tax assets — unrecognised or recognised, are reviewed at each reporting date and are recognised/reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The break-up of the major components of the deferred tax assets and liabilities as at balance sheet date has been arrived at after setting off deferred tax assets and liabilities where the Company has a legally enforceable right to set-off assets against liabilities and where such assets and liabilities relate to taxes on income levied by the same governing taxation laws.

Current and deferred tax for the year

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized

in other comprehensive income or directly in equity respectively.

Minimum Alternate Tax (MAT) is accounted as current tax when the Company is subjected to such provisions of the Income Tax Act. However, credit of such MAT paid is available when the Company is subjected to tax as per normal provisions in the future. Credit on account of MAT is recognized as an asset based on its recoverability in the future.

2.8 Provisions and contingent liabilities

2.8.1 Provisions

A provision is recorded when the Company has a present or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reasonably estimated.

Provision for warranty claims is recognised at the time of sale based on the historical experience. Initial estimate of warranty expense is reviewed annually

2.8.2 Contingent Liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is termed as a contingent liability. Show cause notices are not considered as Contingent Liabilities unless converted into demand.

2.9 Leases

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating lease. Payments made under operating leases are charged to profit or loss in the year in which the rent is actually incurred as the payments made to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increase.

2.10 Cash and Cash equivalents

Cash and cash equivalents include cash on hand and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value..

2.11 Financial assets

2.11.1 Classification

The Company classifies its financial assets in the following measurement categories:

- (i) Those measured subsequently at fair value through other comprehensive income (in case of investments in equity instruments) through profit or loss.
- (ii) Those measured at amortised cost

The classification is based on the Company's business model for managing the financial assets and the contractual terms of the cash flow for assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income.

2.11.2 Measurement

Initial Measurement

The Company measures a financial asset at its fair value plus cost that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

2.11.3 Subsequent measurement Investments - Fair value through OCI

Equity investments which are not held for trading, are measured at Fair Value Through Other Comprehensive Income (FVOCI). Fair value gains or losses are routed to OCI. A gain or loss on sale of equity investment that is subsequently measured at fair value through OCI is reclassified to Profit and loss account.

2.11.4 Other financial assets

After Initial Measurement, financial assets are subsequently measured at amortised cost using the effective interest rate method (EIR). Amortised cost is calculated by taking into account any discount or premium and fees or cost that are an integral part of EIR. The EIR amortization is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss

2.11.5 Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been significant increase in credit risk.

For trade receivables, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected credit losses to be recognised from initial recognition of the receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each Balance Sheet date, right from its initial recognition

2.11.6 De recognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when the rights to receive cash flows from the asset have expired.

2.12 Financial Liabilities

2.12.1 Classification

The Company classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through profit or loss. Such liabilities shall be subsequently measured at fair value

2.12.2 Initial recognition and measurement

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

2.12.3 Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the Statement of Profit and Loss when the liabilities are derecognised.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss. This category generally applies to interest-bearing loans and borrowings.

2.12.4 Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

2.12.5 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.13 Dividend to Shareholders

Final dividend distributed to equity shareholders is recognized in the period in which it is approved by the members of the Company in the Annual General Meeting. Interim dividend is recognized when approved by the Board of Directors at the Board Meeting. Dividend distributed is recognized in the Statement of Changes in Equity.

2.14 Earnings per Share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

2.15 Segment Information

The Chief Executive Officer (CEO) of the Company has been identified as the Chief Operating Decision Maker (CODM) as defined by Ind AS-108, "Operating Segments." The Management considers " Money Changing" as single reportable segment.

2.16 Cash flow statement

Cash flow statement is prepared in accordance with the indirect method prescribed in Ind AS 7 'Statement of Cash Flows'.

Cash flows are reported using the indirect method, whereby profit/ (loss) before tax is adjusted for the effects of transactions of no cash nature and any deferrals or accruals of past or future cash receipts or payments. Cash flow for the year is classified by operating, investing and financing activities

2.17 Critical Estimates and Judgements

The preparation of financial statements in conformity with the generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amount of assets and liabilities as of the balance sheet date and reported revenue and expenses for the year and disclosure of contingent liabilities as of the date of balance sheet. The estimates and assumptions used in the accompanying financial statements are based upon the management's evaluation of the relevant circumstances as of the date of financial statements.

Actual amounts could differ from these estimates.

This note provides an overview of the areas that involve a higher degree of judgment or complexity, and of items which may be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed in about each of these estimates and judgments is included in the relevant notes together with information about the basis of calculation of each affected line item in the financial statements.

The areas involving critical estimates or judgments are:

- i. Estimation of current tax expense and payable – Note 4
- ii. Estimation of defined benefit obligation – Note 7
- iii. Estimation of useful life of Property, Plant and Equipment and Intangibles -Note 2.3

6. Financial risk management

The Company's activities expose to limited financial risks: market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance.

Market risk

Market risk is the risk of loss of future earnings or fair values or future cash flows that may result from a change in the price of a financial instrument.

The Company is exposed to market risk primarily related to foreign exchange rate risk (currency risk), Interest rate risk and the market value of its investments.

Securities Prices Risk:

The Company's exposure to equity securities price risk arises from Investments held and classified in the Balance Sheet either Fair Value through P&L. or fair value through OCI. The company has investments in securities held not for trading, monitors the movement in the value of the securities by observing the NAV.

Credit Risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. It principally arises from the Company's Trade Receivables, Retention Receivables, Advances and deposit(s) made. The company is predominantly into cash and carry business and does an internal evaluation before credit is given to any party and as such the impact of credit risk is minimal.

Liquidity Risk

Company's liquidity needs are monitored on the basis of monthly and yearly projections. The company's principal sources of liquidity are cash and cash equivalents, cash generated from operations.

The company liquidity needs by continuously monitoring cash inflows and by maintaining adequate cash and cash equivalents. Net cash requirements are compared to available cash in order to determine any shortfalls.

Short term liquidity requirements consist mainly of sundry creditors, expense payable, employee dues, repayment of loans and retention & deposits arising during the normal course of business as of each reporting date. Company maintain a sufficient balance in cash and cash equivalents to meet short-term liquidity requirements.

Company accesses the long term liquidity requirements on a periodical basis and manage them through internal accruals. Unsecured Loans from holding company and Retentions & deposits. Company do not have any outside borrowings.

Foreign currency exchange rate risk

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income and equity, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the respective entities.

The Company primary function is forex trading, as holds stock of foreign currency to sell it to customers and as such impact of foreign exchange rate fluctuations are insignificant for the company.

Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets or by adequate funding by the shareholders to absorb the losses of the Company.

The Company's capital comprises equity share capital, retained earnings and other equity attributable to equity holders. The primary objective of Company's capital management is to maximize shareholders value. The Company manages its capital and makes adjustment to it in light of the changes in economic and market conditions. The company is free of external debt.

Report on the Audit of the Consolidated Ind AS Financial Statements

Opinion

We have audited the accompanying consolidated Ind AS financial statements of India Cements Capital Limited (hereinafter referred to as the 'Holding Company') and its wholly owned subsidiary (Holding Company and its subsidiary together referred to as "the Group"), which comprise the consolidated Balance Sheet as at March 31, 2021, and the consolidated statement of Profit and Loss, the consolidated statement of changes in equity and the consolidated cash flows Statement for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated Ind AS financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, as at March 31, 2021, of consolidated loss, *consolidated changes in equity* and its consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements* section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in India in terms of the Code of Ethics issued by ICAI and the relevant provisions of the Companies Act, 2013, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We draw attention to Note No. 10 of the Notes to Accounts of the Consolidated Ind AS Financial Statements indicating that the Company's main business, viz. Forex Operation, has been affected during the Financial Year on account of restrictions on foreign travel imposed due to pandemic caused by COVID 19. The Company is hopeful that the Business will improve as and when the international tour operations resume. The company is reported to have explored other lines of business and taken steps to generate income and to reduce the overall cost of its operations. With signs of improvement in the overall situation of the economy the Company expects to improve its business in the coming years.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. We have determined that there are no key audit matters to communicate in our report.

Other Information

The Company's management and Board of Directors is responsible for the other information. The other information comprises the information included in the company's annual report but does not include the Consolidated Ind AS financial statements and our auditors' report thereon.

Our opinion on the Consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated Ind AS financial statements in term of the requirements of the Companies Act, 2013 (the Act) that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

In this connection we refer to Note No.10 in the Notes to Accounts of the Consolidated Ind AS Financial Statements, which has also been mentioned earlier under **Basis for Opinion**.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ▶ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- ▶ We are responsible for the direction, supervision and performance of the audit of the financial statements of subsidiary included in the consolidated financial statements of which we are the independent auditors. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and the subsidiary included in the consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements.

- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated Ind AS financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, the consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements.
- (d) In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 2021 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary company, none of the directors of the Group companies, is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164(2) of the Act.
- (f) With respect to the adequacy of internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate report in Annexure A.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The consolidated Ind AS financial statements disclose the impact of pending litigations on the consolidated financial position of the Group – Refer Note on Contingent Liabilities Note No.3.1 to the consolidated Ind AS financial statements.
 - ii. The Group did not have any material foreseeable losses on long-term contracts including derivative contracts.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company, and its subsidiary company.

Report on Internal Financial Controls Over Financial Reporting

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the Internal Financial controls over financial reporting of INDIA CEMENTS CAPITAL LIMITED (hereinafter referred to as "the Holding Company") and its subsidiary Company, which are companies incorporated in India, as of March 31, 2021 in conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its Subsidiary Companies which are companies incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Holding & Subsidiary Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance

with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its Subsidiary Company which are companies incorporated in India, have in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

2. Significant Accounting Policies

2.1 Basis of Preparation of financial statements

2.1.1 Preparation and compliance with Indian Accounting Standards (IND AS)

The Ministry of Corporate Affairs ('the MCA'), Government of India in exercise of the powers conferred by Section 133 read with Section 469 of the Companies Act, 2013 (The 'Act') and subsection 1 of section 210A of the Companies Act 1956 (The Erstwhile Act) in consultation with National Advisory Committee on Accounting Standards vide G.S.R. 111(E) dated February 11,2015 notified Rules called Companies (Indian Accounting Standard) Rules 2015 effective April 1,2015 which was further amended by MCA vide its notification dated March 30, 2016 In line with the road map framed by the MCA, regarding the applicability of Ind AS, the Group has prepared Ind AS Financials for two accounting periods March 31, 2019 with comparatives for the year ended on March 31, 2018 with transition Balance sheet as at April 1, 2017.

2.1.2 Statement of Compliance

The financial statements comprising Balance sheet, Statement of Profit and Loss, Statement of changes in equity, cash flow statement , together with notes as at and for the year ended March 31, 2021 have been prepared in accordance with Ind AS duly approved by the Board of Directors.

2.1.3 Historical Cost convention

Preparation and compliance with Indian Accounting Standards (IND AS)

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group considers the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/ or disclosure purposes in these Group financial statements is determined on such a basis, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

2.1.4 Current / Non Current classification

The assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out in the Schedule III to the Act. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities. Cash or cash equivalent is treated as current, unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

2.1.5 Functional and Presentation currency Items included in the Financial Statements of the Group are measured and presented using the currency of the primary economic environment in which the Group operates ("Functional Currency"). Indian Rupee is the functional Currency of the Group.

2.1.6. Recent accounting pronouncement

The group has applied the following standards and amendments for the first time for their annual reporting period commencing 1 April 2018:

Ind AS 115, Revenue from Contracts with Customers Amendment to Ind AS 20, Accounting for Government Grants and Disclosure of Government Assistance Appendix B, Foreign Currency Transactions and Advance Consideration to Ind AS 21, The Effects of Changes in Foreign Exchange Rates.

Amendment to Ind AS 12, Income Taxes Amendment to Ind AS 40, Investment Property

Amendment to Ind AS 28, Investments in Associates and Joint Ventures and Ind AS 112, Disclosure of Interests in Other Entities

The group had no requirement to change its accounting policy and adjustments following the adoption of Ind AS 115 has been prospective.

Most of the other amendments listed above did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

Ind As 116 Leases

Company proposes to use the Modified Retrospective Approach' for transitioning to Ind As 116, and take the cumulative adjustment to retained earnings , on the date of initial application(April 01, 2019).Accordingly, comparatives for the year ended 31st March 2019 will not be retrospectively adjusted. The company has elected certain available practical expedients on transition.

The effect of adoption as on transition date would be insignificant on the financial statements.

Ind AS 12 Appendix C, Uncertainty over Income tax treatments Amendment to Ind AS 12 – Income Taxes Amendments to Ind AS19 – plan amendment ,curtailment or settlement.

2.1.7. Basis of Consolidation

Principles of Consolidation:

The Consolidated Financial Statements have been prepared on the following basis:

The financial statements of the Group and its subsidiary company have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and the difference between the cost of investment in the subsidiaries and the Group's share of net assets at the time of acquisition of shares in the subsidiaries is recognized in the financial statements as Goodwill or Capital Reserve as the case may be, the investments in associates are accounted for using the equity method of accounting. Under the equity method, investments in associates are carried in the consolidated statement of financial position at cost as adjusted for post -acquisition changes in the associates.

Goodwill relating to the associate is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment.

The consolidated Financial Statements are prepared using the uniform accounting policies for like transactions and other events in similar circumstances except stated otherwise the consolidated financial statements present the consolidated accounts of the Group, which consists of the accounts of the Group and its subsidiary.

2.2 Revenue recognition

The MCA has issued a new standard for the recognition of revenue. This will replace Ind AS 18, Revenue which covers contracts for goods and services and Ind AS 11, contracts which covers construction contracts. The new standard is based on the principle revenue recognised when control of a good or service transfers to a customer, so the notion of control replaces the risks and rewards.

A new five step process must be applied before revenue can be recognised

- Identify the contract with customer
- Identify the separate performance obligation
- Determine the transaction price
- Allocate the transaction price to each of the separate performance obligation
- Recognize the revenue as each performance obligation is satisfied

2.2.1 Revenue from Sale of currencies

Sales Revenue is recognized when control of currencies had passed on to the buyer. Revenue from these sale transactions are recognised based on price specified in the contract. Control is passed on to the buyer at a point in time of delivery of currencies.

Brokerage income

Entity earns brokerage income from sale of securities to stock exchange

Income from brokerage being the commission on money changing activities is recognized on net basis, Performance obligation is complete upon completion of sale and/ or purchase of currencies from the vendors/ to the customers.

2.2.2 Interest Income

Interest income if any from financial assets are recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset.

Interest income from fixed deposits in banks is recognised on time proportion basis, determined by the amount outstanding and the rate applicable.

2.3 Property, Plant and Equipment

2.3.1 Tangible Assets

All property plant and equipment are stated at historical cost of acquisition less accumulated depreciation and amortization and impairment. Historical cost includes purchase price, taxes and duties (Net of tax credits), labour cost and directly attributable overhead expenditure incurred upto the date the asset is ready for its intended use.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as separate asset is

derecognized when replaced. All other repairs and maintenance are charged to Profit or Loss during the reporting period in which they are incurred.

Transition to Ind AS

On transition to Ind AS, Group has elected to continue carrying value of all its property, plant and equipment recognized as at 1st April 2017 measured as per the previous GAAP and use that carrying value as deemed cost of the property, plant and Equipment.

Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straightline method to allocate their cost, net of their residual values, over their estimated useful lives. The useful lives of assets are adopted to as specified by Schedule II to the Companies Act 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/ (losses).

2.3.2 Intangible assets

Intangible assets acquired are measured at cost less accumulated amortisation and impairment losses.

Identifiable intangible assets are recognized when the Group controls the asset; it is probable that future economic benefits expected with the respective assets will flow to the Group for more than one economic period; and the cost of the asset can be measured reliably. Amortisation is provided on Straight Line Method (SLM), which reflect the management's estimate of the useful life of the intangible assets.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset

Intangible Asset	Useful Life
Software	10 years

2.3.3 Impairment of assets

Assessment is done at each Balance Sheet date as to whether there is any indication that an asset (tangible and intangible) may be impaired. If any such indication exists, an estimate of the recoverable amount of the asset/ cash generating unit is made. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.

2.3.4 Capital Work in Progress

The cost of self-constructed assets includes the cost of materials, direct labour and any other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management and borrowing costs.

Expenses directly attributable to construction of property, plant and equipment incurred till they are ready for their intended use are identified and allocated on a systematic basis on the cost of related assets

2.4 Borrowing costs

The Group capitalises borrowing costs that are directly attributable to the acquisition, construction or production of qualifying asset as a part of the cost of the asset. The Group recognises other borrowing costs as an expense in the period in which it incurs them. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale.

To the extent the Group borrows generally and uses them for the purpose of obtaining a qualifying asset, amount of borrowing cost eligible for capitalization is computed by applying a capitalization rate to the expenditure incurred. The capitalization rate is determined based on the weighted average of borrowing costs, other than borrowings made specifically towards purchase of a qualifying asset.

2.5 Foreign currency translation

2.5.1 Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Group operates ('the functional currency'). i.e in Indian rupee (INR.)

2.5.2 Transaction and Balances

Initial recognition

Foreign currency transactions are recorded in functional currency using the exchange rates prevailing on the date of transaction

Subsequent recognition

As at the reporting date, non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate prevailing at the date of the transaction.

All monetary assets and liabilities denominated in foreign currency are restated at the closing exchange rates. Exchange differences arising out of actual payment/ realization and from the year end restatement are recognised in the Statement of Profit and Loss.

2.6 Employee benefits

2.6.1 Short Term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services upto the end of the report period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

The Group recognises a liability and an expense for bonuses. The Group recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

2.6.2 Post employment obligation

The Group operates the following post employment benefit schemes

Defined benefit plans such as gratuity for its eligible employees and defined contribution plans such as provident fund

Defined Benefit Plan (Gratuity)

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on the government bonds that have terms approximating to the terms of the related obligation

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of assets. This cost is included in employee benefit expense in the statement of profit and loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the year in which they occur, directly in other comprehensive income. They are included in Other comprehensive income in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined Contribution Plan (Provident Fund)

The Group pays provident fund contributions to publicly administered provident funds as per relevant regulations. The Group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to extent that a cash refund or a reduction in the future payments is available.

2.7 Taxes on Income

Income tax expense represents the sum of the current tax and deferred tax.

Current tax

The current tax is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit or loss and other comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts and it is intended to settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be utilised.

Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Deferred tax assets — unrecognised or recognised, are reviewed at each reporting date and are recognised/reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The break-up of the major components of the deferred tax assets and liabilities as at balance sheet date has been arrived at after setting off deferred tax assets and liabilities where the Group has a legally enforceable right to set-off assets against liabilities and where such assets and liabilities relate to taxes on income levied by the same governing taxation laws.

Current and deferred tax for the year

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

Minimum Alternate Tax (MAT) is accounted as current tax when the Group is subjected to such provisions of the Income Tax Act. However, credit of such MAT paid is available when the Group is subjected to tax as per normal provisions in the future. Credit on account of MAT is recognized as an asset based on its recoverability in the future.

2.8 Provisions and contingent liabilities

2.8.1 Provisions

A provision is recorded when the Group has a present or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reasonably estimated.

Provision for warranty claims is recognised at the time of sale based on the historical experience. Initial estimate of warranty expense is reviewed annually

2.8.2 Contingent Liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is termed as a contingent liability. Show cause notices are not considered as Contingent Liabilities unless converted into demand.

2.9 Leases

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Group as lessee are classified as operating lease. Payments made under operating leases are charged to profit or loss in the year in which the rent is actually incurred as the payments made to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increase.

2.10 Cash and Cash equivalents

Cash and cash equivalents include cash on hand and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

2.11 Financial assets

2.11.1 Classification

The Group classifies its financial assets in the following measurement categories:

- (i) Those measured subsequently at fair value through other comprehensive income (in case of investments in equity instruments) through profit or loss.
- (ii) Those measured at amortised cost

The classification is based on the Group's business model for managing the financial assets and the contractual terms of the cash flow for assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income.

2.11.2 Measurement

Initial Measurement

The Group measures a financial asset at its fair value plus cost that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

2.11.3 Subsequent measurement Investments - Fair value through OCI

Equity investments which are not held for trading, are measured at Fair Value Through Other Comprehensive Income (FVOCI). Fair value gains or losses are routed to OCI. A gain or loss on sale of equity investment that is subsequently measured at fair value through OCI is reclassified to Profit and loss account.

2.11.4 Other financial assets

After Initial Measurement, financial assets are subsequently measured at amortised cost using the effective interest rate method (EIR). Amortised cost is calculated by taking into account any discount or premium and fees or cost that are an integral part of EIR. The EIR amortization is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss

2.11.5 Impairment of financial assets

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected credit losses to be recognised from initial recognition of the receivables.

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each Balance Sheet date, right from its initial recognition

2.11.6 De recognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Group's balance sheet) when the rights to receive cash flows from the asset have expired.

2.12 Financial Liabilities

2.12.1 Classification

The Group classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through profit or loss. Such liabilities shall be subsequently measured at fair value

2.12.2 Initial recognition and measurement

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

2.12.3 Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the Statement of Profit and Loss when the liabilities are derecognised.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss. This category generally applies to interest-bearing loans and borrowings.

2.12.4 Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

2.12.5 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.13 Dividend to Shareholders

Final dividend distributed to equity shareholders is recognized in the period in which it is approved by the members of the Group in the Annual General Meeting. Interim dividend is recognized when approved by the Board of Directors at the Board Meeting. Dividend distributed is recognized in the Statement of Changes in Equity.

2.14 Earnings per Share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

2.15 Segment Information

The Chief Executive Officer (CEO) of the Group has been identified as the Chief Operating Decision Maker (CODM) as defined by Ind AS-108, "Operating Segments." The Management considers "Money Changing" as single reportable segment.

2.16 Cash flow statement

Cash flow statement is prepared in accordance with the indirect method prescribed in Ind AS 7 'Statement of Cash Flows'.

Cash flows are reported using the indirect method, whereby profit/ (loss) before tax is adjusted for the effects of transactions of no cash nature and any deferrals or accruals of past or future cash receipts or payments. Cash flow for the year is classified by operating, investing and financing activities.

2.17 Critical Estimates and Judgements

The preparation of financial statements in conformity with the generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amount of assets and liabilities as of the balance sheet date and reported revenue and expenses for the year and disclosure of contingent liabilities as of the date of balance sheet. The estimates and assumptions used in the accompanying financial statements are based upon the management's evaluation of the relevant circumstances as of the date of financial statements.

Actual amounts could differ from these estimates.

This note provides an overview of the areas that involve a higher degree of judgment or complexity, and of items which may be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed in about each of these estimates and judgments is included in the relevant notes together with information about the basis of calculation of each affected line item in the financial statements.

The areas involving critical estimates or judgments are:

- i. Estimation of current tax expense and payable – Note 4
- ii. Estimation of defined benefit obligation – Note 7
- iii. Estimation of useful life of Property, Plant and Equipment and Intangibles -Note 2.3

6. Financial risk management

The Group's activities expose to limited financial risks: market risk, credit risk and liquidity risk. The Group's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance.

Market risk

Market risk is the risk of loss of future earnings or fair values or future cash flows that may result from a change in the price of a financial instrument.

The Group is exposed to market risk primarily related to foreign exchange rate risk (currency risk), Interest rate risk and the market value of its investments.

Securities Prices Risk:

The Group's exposure to equity securities price risk arises from Investments held and classified in the Balance Sheet either Fair Value through P&L, or fair value through OCI. The Group has investments in securities held not for trading, the Group monitors the movement in the value of the securities by observing the NAV.

Credit Risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. It principally arises from the Group's Trade Receivables, Retention Receivables, Advances and deposit(s) made. The Group is predominantly into cash and carry business and does an internal evaluation before credit is given to any party and as such the impact of credit risk is minimal.

Liquidity Risk

Group's liquidity needs are monitored on the basis of monthly and yearly projections. The Group's principal sources of liquidity are cash and cash equivalents, cash generated from operations.

The Group liquidity needs by continuously monitoring cash inflows and by maintaining adequate cash and cash equivalents. Net cash requirements are compared to available cash in order to determine any shortfalls.

Short term liquidity requirements consist mainly of sundry creditors, expense payable, employee dues, repayment of loans and retention & deposits arising during the normal course of business as of each reporting date. Group maintain a sufficient balance in cash and cash equivalents to meet short-term liquidity requirements.

Group accesses the long term liquidity requirements on a periodical basis and manage them through internal accruals.

Unsecured Loans from holding Group and Retentions & deposits. Group do not have any outside borrowings.

Foreign currency exchange rate risk

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income and equity, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the respective entities.

The Group primary function is forex trading, as holds stock of foreign currency to sell it to customers and as such impact of foreign exchange rate fluctuations are insignificant for the Group.

Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets or by adequate funding by the shareholders to absorb the losses of the Group.

The Group's capital comprises equity share capital, retained earnings and other equity attributable to equity holders. The primary objective of Group's capital management is to maximize shareholders value. The Group manages its capital and makes adjustment to it in light of the changes in economic and market conditions. The Group is free of external debt.

10. Covid-19 a global pandemic has impacted the whole economy and created an unprecedented level of disruption. Only recently the domestic air traffic has been resumed and that too is not fully operational . However Company's main business namely forex operations depends upon the international air traffic which is yet to be operational fully. The company is hopeful of improving its forex business to a reasonable level as and when the international tourist operations resume. The Company also assessed the possible impact of Covid-19 on its financial statements based on the internal and external information available upto the date of approval of these financial results and concluded no adjustment is required in these results. The Company continues to monitor the future economic conditions. Moreover considering the liquidity position of the company and the other efforts taken like reduced cost of operations and to generate / improve the income from other lines, the management believes the company will continue as going concern.
